EDUCATION

Strathmore University, B.S. in Computer Science, Current Average: 69.81%, Expected Graduation: 2028 *June 2024 - Present*

Achievement: Dean's List (First Class Honours – First Year)

Relevant Coursework: Data Structures & Algorithms, Discrete Mathematics, Linear Algebra, Probability & Statistics, Differential & Integral Calculus, Object-Oriented Programming (I & II), Database Systems, Computer Networks

Member: IEEE, Strathmore Computing and Engineering Students Association (SCESA), Mental Health Club, Women in Tech Kenya

TECHNICAL SKILLS

Programming Languages: C++, Python, Java, HTML, CSS, PHP, JavaScript, React, NextJS

Frameworks & Tools: Laravel, Bootstrap, Vite, Tkinter, Livewire, React

Databases: MySQL, SQL (basic)

Other: Git/GitHub, UI design fundamentals, CRUD systems, teamwork & collaboration

Current Focus: Building strong foundations in mathematics, data structures, and Python for Machine Learning and AI applications.

WORK EXPERIENCE

Qhala

AI Research Fellow — Idia Fellowship, Qubit Hub (Qhala)

Jan 2026 – Present

- Selected as an AI Research Fellow under the Idia Fellowship, a 12-month program co-designing AI-enabled tools to advance women's livelihoods, maternal health, and socio-economic growth across Africa
- Conducting field research on how AI-powered tools are adopted and used by women led sme's, investigating usability, accessibility, affordability, and cultural fit
- Participating in co-creation workshops alongside developers, policymakers, and experts to prototype inclusive solutions such as offline fintech chatbots and business dashboards
- Contributing to the development of design guidelines and policy briefs aimed at making AI tools more practical and inclusive for African women

AI Literacy Volunteer — QTrust

Jan 2026-April 2026

- Delivered in-person AI literacy sessions to community members, students, and youth groups, simplifying complex AI concepts into relatable, everyday examples
- Supported community outreach and mobilization efforts, coordinating attendance and assisting in the facilitation of workshops and training sessions
- Collaborated with facilitators, volunteers, and community leaders to adapt training content to local contexts and address community-specific technology needs and challenges
- Documented community participation and learning outcomes, tracking attendance, feedback, and the observed impact of outreach activities

PROJECTS

WASTEWISE - React.js, Node.js, Firebase, Roboflow

April 2026-Present

- Co-developing a web-based food waste tracking system tailored for Kenyan households, enabling users to manage pantry inventory, track expiry dates and reduce household food waste
- Implementing a machine learning powered freshness classification feature using Roboflow to estimate the shelf life of fresh produce without printed expiry dates
- Integrating a smart disposal and donation suggestion feature connecting households to local NGOs and recycling companies for surplus food redistribution

CASA AMOR - Laravel, Livewire, Bootstrap

Aug 2025-Nov 2025

- Spearheaded a team to build a housing platform where admins authenticate agents before tenants can book viewings.
- Developed a multi-role authentication system with real time chat functionality between tenants and verified agents
- Implemented secure file uploads and document verification to maintain platform integrity and prevent fraudulent listings

EDUCRACK - HTML, CSS, PHP, MySQL

April 2025-July 2025

- Led a team to build a quiz and learning platform for Strathmore students and lecturers
- Developed responsive UI components and authentication pages using HTML, CSS, PHP, MySQL ● Managed GitHub workflow and coordinated team progress.

LEADERSHIP

IEEE, Strathmore University

Feb 2026 – Present

Co-lead, Industrial Engagement – IEEE Student Branch , Strathmore University

- Co-led the Industry Engagement docket, building and maintaining strategic partnerships between the IEEE Student Branch and engineering firms, tech companies, startups, and industry professionals
- Coordinated guest talks, industry site visits, and competitions to connect students with professional opportunities
- Collaborated with the Treasury docket to identify and apply for grants and secure funding for student-facing events and activities
- Developed and maintained professional communication with external stakeholders, including drafting outreach emails and representing the branch at formal engagements
- Contributed to expanding student access to internships, industrial attachments, and professional networks through structured industry outreach

17th Academic Sub Committee, Strathmore University

October 2025 – Present

Co-lead, Interfaculty Projects

- Spearhead the Interfaculty Projects docket, driving collaboration between different schools and faculties to promote innovation and cross-disciplinary problem-solving.
- Lead planning, coordination, and execution of initiatives that encourage teamwork and academic creativity across departments.
